

**BODY OF EDWARD CONNELL FOUND**

Workmen Cleaning Grating in the Race, Discover Dead Man.

**MUCH DECOMPOSED**

Burial Took Place This Afternoon from Undertaker's, to Mount Olivet.

**LEFT A LARGE FAMILY**

The disappearance of Edward Connell, who was last seen alive on the evening of February 24, was explained this morning when his lifeless body was taken from the race way in the rear of F. H. Baack's clothing store.

Thomas Cassoday and Will Cleveland, two men in the employ of the Janesville Electric Light Co. were engaged in cleaning away the accumulation of debris that had lodged against the iron grating put across the race way to keep floating matter from going down through the flume. They started on the River street side of the race and had nearly reached the opposite side, when Cleveland caught his hook in the collar of Connell's coat and raised him to the surface of the water. The sight frightened Cleveland and he started to leave the race way.

Hook Caught Dead Man's Clothes. Cassoday came up and caught his hook in the dead man's clothing and sent Cleveland for help. He soon returned with Captain Abbott of the fire department and the body was towed ashore near Kimball's undertaking rooms and taken to them and prepared for burial.

The body was badly decomposed from its long immersion but there was no trouble in telling that it was that of the missing man.

Connell was last seen alive on Monday evening, February 24. He was in Baack's store up to the time they closed up and was seen by several persons standing in the doorway of the store as late as seven thirty o'clock. He told one or two parties that he was going home on the next car and that was the last seen of him until his body was taken from the race this morning.

His family did not think much of his disappearance the first night he was away as he often went into the country on insurance business and remained away over night, but when he did not come home the next night they became alarmed and made a thorough search for him. It was thought by many at the time that he had fallen into the race but a careful dragging to the bottom failed to discover him.

Was Born in Ireland.

Edward Connell was born in the county Tipperary, Ireland, about sixty-seven years ago and came to this country and settled in Janesville in 1848. After he had been here some years he engaged in the grocery business and was quite successful for many years.

Later in life he engaged in the insurance business and followed it up to the time of his death. Mr. Connell was always an active politician and for many years was assessor of the east side and was considered one of the best assessors that the city ever had.

He leaves surviving him a wife, and eight children: Mrs. Nellie Walker of Janesville, Wis.; H. S. Edler, of Texas; Mrs. W. E. Buck of Louisville, Ky.; Edward H. Connell, Chas. Connell, Miss Isabel Connell, Mrs.

**EASTER FLOWERS ARE BLOOMING; THE LILY LEADS ALL IN BEAUTY**

Cut Flowers and Plants Are in the Market in Great Profusion—Dealers Declare Prices Are More Reasonable Than Ever Before.

Open your purses, and open your hearts—the flowers have come to town. You may see them in the shop of every florist, heaped in luxurious profusion upon the counters, lining the walls in banks of loveliness, and making glowing bowers of enchantment of window recesses.

Their odors of lingering delight drift out through the smiling festooned doorways into the sunlit streets and fill the hearts of the most heedless passer by with a subtle message that spring has come again; that the sap is stirring in the trees which have so long been clanking bare branches under leaden skies; that the dog tooth violets are lifting their shy heads; that country lanes are growing green.

The flowers have come to town symbols of the joy of Easter tide, and no man is so poor that he may not at least buy one dainty blossom from among them.

Many hundred dollars' worth will be poured into the tills of the florists by tonight and when Sunday morning comes an army of pretty girls will go to church adorned with violets while the homes without even a single lily will be remarkably few. Best news of all, the word has gone forth that prices were never so reasonable. The reigning favorite among all classes of buyers this season is the

William Knipp, all of this city and John Connell of Texas. The funeral was held this afternoon and was private. The interment was in Mount Olivet cemetery.

**MONEY FOR THE NATIONAL GUARD**

Thirty-Five Thousand Dollars Has Been Apportioned Among the Companies in the State.

Madison, Wis., March 29.—The annual appropriation for the maintenance of the Wisconsin National Guard was apportioned today. It aggregates about \$35,000. The new law passed a year ago provides how much each company and each officer is to receive. The companies get \$5 for each enlisted man who reports at the annual inspection. This money goes for clothing and other legitimate expenses. In addition each company outside of Milwaukee gets \$400 for armory rent. The Milwaukee companies get \$500 for this purpose. The troop and battery in Milwaukee each get \$800 for armory rent and \$1,500 for extraordinary expenses. The bands are allowed \$100 for armory rent and \$5 per man for clothing. The colonels receive \$100 per year for incidental expenses of regimental headquarters. The majors, captains and battalion adjutants each receive an allowance of \$50.

**WOMAN SEEKS A SEAT IN CONGRESS**

Miss Mary Burkhart of Kentucky, is Confident She Will Be Elected and Take Position.

Louisville, Ky., March 29.—Miss Mary Burkhart of Lane, Wolf county, has announced herself as a candidate for congress on the prohibition ticket in the Tenth district. She says she will make a house to house canvass and will win over her democratic and republican opponents by a big vote. Miss Burkhart is 26 years old and is an attractive brunette. She possesses about \$10,000 in her own name and she says she will spend some of her money in her campaign. "There is no law," she said, "to prevent me from taking a seat in congress. If I receive a majority of the votes, which I am certain I will, I defy congress to unseat me. The golden rule is my platform, with prohibition thrown in."

**EASTER MONDAY AT THE WHITE HOUSE**

Mrs. Roosevelt Has Invited Children of Her Friends to Engage in an Egg Rolling.

Washington, D. C., March 29.—Mrs. Roosevelt has invited the ladies of the cabinet and a number of friends to bring their children to view the egg rolling on the lawn from the south front balcony between 4 and 5 o'clock on Monday afternoon. When occupying a more private position in Washington life it was the custom of the president's children to participate in this annual festival, and it is probably they will again become lost in the throng of children who always pay their respects and bring their eggs to the White House lawn on Easter Monday.

May Buy Green Bay Road

It is reported that one of the big systems, either the Northwestern or St. Paul is trying to secure control of the Green Bay & Western railroad. The road runs from Green Bay, Wis., to Winona, Minn., and with branches is 225 miles long. The company also owns an interest in the bridge over the Mississippi at Winona. The company is capitalized for \$2,000,000. It is bonded for \$7,600,000.

**ROOT DESIGNATES MILES' PLAN AS "PECULIAR AND SENSATIONAL"**

Correspondence Relating to the Miles Controversy is Sent to the House by President Roosevelt, as Per Request—Congress Next Week.

Washington, D. C., March 29.—President Roosevelt today complied with the resolution passed by the house requesting the correspondence relative to General Miles' recent proposition for bringing about peace in the Philippines.

The correspondence was accompanied by a brief message in which the president states that he includes certain additional memoranda added by Miles since the passage of the resolutions together with the action taken thereon.

The Miles proposition is to take representative Cubans and Porto Ricans to the Philippines with him to convince the natives of the benefit of United States control and to send back representative Filipinos to Washington to study governmental conditions here. It was disapproved by Root on the

**PROSPERITY DUE TO A SHORT CORN CROP**

Farmers Having Beef Cattle Are in Good Shape—Secretary Wilson Tells of the Situation.

Washington, March 29.—Great prosperity and a short corn crop is Secretary Wilson's explanation of the recent advance in the price of beef. "I am not an expert on the trust question," said the Secretary of Agriculture today, but I do claim to know something about the raising and selling of beef. Others may talk about the 'beef combine' as much as they like.

"But to me the raise in the price of beef is very easily explained. It is due almost wholly to a short corn crop last year, and to a great demand for beef caused by the prosperity of the people of the United States. The high price of corn has made it necessary for western cattle feeders to send south for cotton seed meal to feed their stock with."

"The price of fat cattle on the hoof at the Chicago stock yards has advanced from 4 to 5 cents a pound to 7 cents. Men who have the beef cattle to sell can almost get their own prices."

"There is a great demand for cattle and that means a great demand for beef. The people of the United States are eating more beef now than they ever did before in their history. This is because they are making money and spending it. There are not many families in this country that do not have their steaks and roasts and boiling pieces. The American people are by all odds the best fed people in the world."

"Under such circumstances it is only natural that the price of beef should advance. Cattle and meat, like all other commodities, have to follow the laws of supply and demand. The men who have cattle to sell naturally want the highest prices they can get. It is the same with the packers and retailers."

**SULTAN CALLS OUT IRREGULAR TROOPS**

Turkish Government Calls Reserves to the Colors, Ostensibly for the Annual Maneuvers.

Constantinople, March 29.—The Turkish government has decided to call to the colors 90,000 irregular troops. This mobilization is ostensibly for the annual maneuvers, but in view of the conditions in Macedonia a considerable significance is attached to the movement.

Sofia, Bulgaria, March 29.—One hundred and fifty Turkish troops attacked a Bulgarian post near Saratch yesterday. One Bulgarian was killed and several were wounded. The Bulgarian garrison is being reinforced by two companies of soldiers.

**SAY A. H. EVERETT WILL BE NAMED**

Announced in Racine That He Will Succeed H. C. Adams as Food Commissioner.

Racine, Wis., March 29.—It is announced in this city today from an authoritative source that A. H. Everett of this city has been named by Governor La Follette to succeed H. C. Adams as state dairy and food commissioner. Mr. Everett was not at his home today, hence the report could not be denied or confirmed by him. He has resided here about nine years, coming from Beloit, where he managed the Morgan stock farm. He is at present manager of the Racine Agricultural, a farm periodical. He is a member of the state board of agriculture and was a candidate for state dairy and food commissioner when Mr. Adams was appointed.

**TEXTILE WORKERS' STRIKE IS OFF**

Lowell, Mass., March 29.—The threatened strike of thousands of textile workers is off for the present. The decision was arrived at this morning at a conference between the mill agents, citizens' committee and representatives of the workers. The citizens' committee promised to do all in its power to secure the increased wages asked by the workers.

**JUDICIAL BATTLE IN THE CREAM CITY**

Selection of a Judge Almost Over—Shows Signs of Weakness.

Milwaukee, Wis., March 29.—While there is deep interest in the mayoralty contest between the republicans and democrats, the judicial battle between the lawyers and others on one side who favor a non-partisan judiciary and the republicans and democrats on the other is destined to be the fight of election day.

The mayoralty candidates are making a personal canvass, talking to crowds night and day, while the friends of Lyman G. Waeleer, the republican candidate and W. D. Tarrant, then on-partisan candidate are flooding the mails with appeals to voters.

Danforth Becker, the democrat who is in the field on an independent ticket, is probably the best advertised of the three candidates for the judgeship, his pictures being conspicuous in all parts of the city.

There is practically no betting on the mayoralty contest, something quite unusual for Milwaukee the past few years. In former campaigns when Rose was a candidate it was an easy matter within a few days of election to find some one who was willing to make a wager, usually with odds in favor of Rose.

But now everyone seems to be afraid. One of the leading gamblers of the city said today that there were some odds of odds of 100 to 80 on Rose, but that there were no takers. A week or ten days ago Rose men were bluffing republicans with talk of 4 or 5 to 1. A few small bets have been made at even money.

The Rose forces have certainly shown signs of weakening during the last twenty-four hours. They realize that the republicans are fighting for something besides a mere local victory, and that the social democrats, whose ticket was scorned at the art, are making frightful inroads upon their people. It is now freely predicted that the Tuttle ticket will poll from 7,500 to 8,000 votes, and if it does Milwaukee will have a republican mayor.

**GIVES A FORTUNE FOR EDUCATION**

Bulk of the \$75,000,000 Left by Cecil Rhodes Goes for Intellectual Benefit of England.

London, March 29.—The Daily Mail states that Cecil Rhodes bequeathed the bulk of his fortune, estimated at \$75,000,000, outside of some personal and family bequests, to promote a vast imperial scheme of education. The project embraces every part of the British dominions. It aims at the intellectual betterment of the British race throughout the world and the fostering of imperial sentiments.

The details will be published in a few days by the executors of his will. A gift to Oriel college, Oxford, which is Mr. Rhodes' alma mater, is a mere incident of the scheme, which is universal in its scope. It is a mistake the Mail says, to suppose that any of Mr. Rhodes' wealth will be specifically devoted to the furtherance of mining or other ventures in Rhodesia, although the latter country will of course, share in the general benefaction.

The Daily Mail adds that this idea of better fitting "younger Britons" to cope successfully with rival nationalities was long a dominant scheme with Cecil Rhodes, but that even his closest friends little imagined the absorbing hold it obtained upon him until this was disclosed by the terms of his will.

**FATAL KENTUCKY FEUD**

Mattewan, W. Va., March 29.—This morning on blackberry creek, Ky., Jos and Eph Hatfield, Harry Watts and John Rutherford were killed in attempting to arrest one of the Hatfield boys.

Chief Hogan arrested several drunks last evening.

**MORMON FAITH MENACES NATION; WARN CHRISTIANS AGAINST THEM**

They Are a Ruin to Good Morals—Evangelicals Assert That National Control Should Be Aimed At—An Appeal to the Public.

New York, March 29.—In a general and specific arraignment of Mormonism issued here today by representatives of the evangelical churches, the Christian public of America is called upon to resist the encroachments of the Mormon faith. The statement declares that the democracy and morality of the nation are threatened by the growth of this religion.

The declaration was prepared by secretaries of missionary societies of the Presbyterian, Baptist, Congregational, Methodist, Episcopal (North and South), Reformed, Cumberland Presbyterian, Disciple of Christ, and United Brethren churches. Speaking of Mormonism the address says:

"It is rapidly growing. The Mormon hierarchy has an unyielding grip on the machinery of the state of Utah, and upon all its political and educational interests. Though often denied, there is no doubt that its practice of polygamy continues in defiance of all the promises made to the United States when statehood was granted. Its power in contiguous states and territories is increasing at an alarm-

**TERRIFIC STORM SWEEPS SOUTH**

Continued Rise of Water is Causing an Immense Loss.

**MANY ARE INJURED**

Houses Demolished, While the Inhabitants Seek Safety in the Highlands.

**BRIDGES WASHED OUT**

Chattanooga, Tenn., March 29.—Harriman, Tenn., is almost totally destroyed by the flood. The damage is over a quarter of a million dollars. Several lives are reported lost.

New Orleans, La., March 29.—The flood situation in the South is worse. Railroad traffic is suspended on all the through lines. Many towns are cut off from communication with the world and others are half under water.

The general rainfall ceased Friday, but storms swept through part of Mississippi, Georgia and Alabama. A terrific wind, rain and electrical storm struck the country around Tupelo and New Albany, Miss., doing fearful damage. At Tupelo dozens of business buildings were unroofed, residences wrecked, and seventy-five negro cabins and the negro church were demolished. Scores of persons were injured, but only one, a negro, was killed. At New Albany the high wind drove the flood waters of the Tallahatchie through the town and the low bridge was swept away.

Meridian is in a bad condition. A foot of rain has fallen there within forty-eight hours. No trains have entered Meridian since Thursday. Bridges through all that district have been swept away.

away and traffic is stopped. An Alabama Southern freight was wrecked at York, running into a wash-out. Two trains are lost on the Alabama & Vicksburg, two on the Mobile & Ohio, and one on the New Orleans & Northwestern somewhere near Meridian. A fast freight on the Northeastern is in six feet of water just outside Meridian and may be swept away. The crew is on top of the cars, and all efforts to reach them in boats have failed. Part of Meridian is under water.

The residence portion of Jackson is flooded and people are fleeing to the highlands. The situation is improving there, but no trains can enter from the south. The Pearl River is spread out miles wide in that district.

Heavy rains fell in Georgia, Tennessee and Alabama. Traffic south of Nashville is abandoned. A rural mail carrier was drowned in Mauree County, Tenn. Louisville & Nashville bridges are gone at Columbia (Tenn.), Athens (Ga.), Palski, Lynville, Sheffield and other points, and the tracks of all railroads washed out in many places.

Three trains are laid up at various points, the passengers being fed in towns near by. Liberty and Mount Pleasant, Tenn., are under water. The Cumberland rose nine feet in five hours at Nashville. Columbia, Tenn., is submerged, the Duck River being thirty-six feet above low water and rising. The town is in darkness.

Grafton, N. D., March 29.—Park River is out of its banks and has risen three feet in twelve hours. The entire northern and eastern part of the city is flooded. Many bridges have been washed out.

## SONGS OF PRAISE IN THE CHURCHES

Houses of Worship Will  
Be Beautifully Deco-  
rated Tomorrow.

## SERVICES OF MUSIC

Elaborate Preparations Have  
Been Made for Proper  
Celebration of Easter.

## PROGRAMS ARE GOOD

Easter services at the churches to-  
morrow will be marked with an un-  
usual floral display and the very best  
of musical talent in the city. Pre-  
parations for these Easter services  
have been going on for weeks and will  
no doubt surpass anything that has  
ever been seen or heard here.

All the Roman and Anglican  
churches celebrated Good Friday yester-  
day. The day was the climax of  
holy week, being a commemoration  
of the crucifixion of Christ, and special  
masses were held all day in the  
various Catholic churches, while the  
Lutherans observed the day by ser-  
vices combined with the sacrament  
of the Lord's supper.

The Knights Templar of Janesville  
Commandery will hold their Easter  
service at the Asylum at 3 o'clock in  
the afternoon. A cordial invitation  
is extended to all, both ladies and  
gentlemen to attend. Rev. Tippet  
will deliver the address. Knights  
are requested to be ready not later  
than 2:45.

The program at the churches to-  
morrow as far as could be ascertained  
are as follows:

**CONGREGATIONAL CHURCH.**  
The morning service, 10:30 o'clock.  
Organ, "The Day of Resurrection."  
Processional, "The Day of Resurrection."  
Hymn, "The Day of Resurrection."  
Prayer, "The Day of Resurrection."  
Offering, "The Day of Resurrection."  
Benediction, "The Day of Resurrection."  
The evening service, 7:30 o'clock.  
Organ, "The Day of Resurrection."  
Processional, "The Day of Resurrection."  
Hymn, "The Day of Resurrection."  
Prayer, "The Day of Resurrection."

Benediction, "The Day of Resurrection."

## WHERE THERE'S SMOKE

There's fire, the saying runs, and so as a  
general rule the saying holds true. The  
fire is unseen, hidden, but the ascending  
smoke makes its presence undoubted.

Similarly you can argue from eruptions of the  
skin to corrupt blood. You can't see the blood, but  
the pimples, boils, etc., which mar the  
skin surely indicate impure blood. For this reason the  
medicine which cures these  
surface blemishes must cure  
them through the blood.

Dr. Pierce's Golden Medical  
Discovery purifies the  
blood, removes the waste  
and poisonous substances  
which corrupt it, and thus  
cures diseases which origi-  
nate in impure blood, such  
as boils, pimples, salt-  
rheum, tetter, eczema,  
sores, and other painful  
and disfiguring diseases.

"Golden Medical Dis-  
covery" also increases the  
activity of the blood-mak-  
ing glands, thus increasing  
the supply of pure blood,  
rich in the red corpuscles of health.

It gives me much pleasure to testify to the  
merits of Dr. Pierce's Golden Medical Discovery.  
I suffer from a skin disease of the face, and  
I have tried many remedies, but I have not  
found any that will cure me. I have heard  
of Dr. Pierce's Golden Medical Discovery, and  
I have decided to try it. I have taken it  
for a week, and I feel much better. I have  
heard of Dr. Pierce's Golden Medical Discovery,  
and I have decided to try it. I have taken it  
for a week, and I feel much better. I have

They say a mule has no soul. But  
that's all right. When the candidate  
strikes the hereafter he'll envy his  
mule.  
I have been carrying a candidate  
around for three weeks. If I couldn't  
run any better than he is running, I'd  
throw up the sponge and eat grass.  
I am tied out in the hot sun three  
hours on a stretch, during which time  
the candidate is annoying a large  
crowd of voters by pranking himself to  
the skies. It's my private opinion  
that if he ever gets to the skies they'll  
take him down in a hurry.  
It amuses me to hear the candidate  
blowing about his war record. I hap-  
pened to be in the war with him, and  
his record consists in making the  
fastest time getting out of it. He went  
through like greased lightning, and  
both of us lost our voices hoarsely  
at the surrender.  
P. S.—I don't lie.

can nominees for mayor at West  
Superior, has brought suit to forbid  
the election officials placing the  
names of the other republican  
nominees. He avers that he is the  
only one entitled to that distinction.  
John D. Witter, a banker and paper  
manufacturer of Grand Rapids, died  
at the Presbyterian hospital, Chicago,  
Saturday night, after an illness of  
but short duration, following an opera-  
tion for kidney trouble, which was per-  
formed a week ago. Deceased was  
sixty-seven years old and had resid-  
ed in Grand Rapids since 1859. He  
was greatly interested in the intro-  
duction of traveling libraries.  
The residence of John Fehr, Racine  
was wrecked by a fire of bricks  
Friday night. It is claimed by the  
press of that city that the house  
looks as if a cyclone had struck it.  
All the windows are broken out,  
the doors forced in, and the walls  
are cracked and marred. Racine is  
awaiting an increase of its police  
force and such an occurrence as this  
would indicate that an increase is  
needed.

## AMUSEMENT NOTES.

"The Climbers," which will be pre-  
sented at the Myers Grand on Tues-  
day, April 1st, contains a number of  
incidents that excited universal dis-  
cussion among theater goers in New  
York last season, the much discus-  
sioned episode occurs at the opening of  
the play. The rise of the curtain  
shows the removal of some funeral  
stools from a drawing room, and im-  
mediately afterward the return of  
the black-clad widow, sister and  
daughters of the dead master of the  
household from his burial. Mr. Fitch  
has made a marriage the subject of  
satirical humor in "The Moth and  
the Flame." He is equally success-  
ful in making of the sombre episode  
an amusing scene illuminative of the  
heartlessness of some members of the  
fashionable set in New York.

The mere announcement of the  
forthcoming appearance of Marguerita  
Sylvia in Willard Spencer's great com-  
edy opera success, "Miss Bob White,"  
at the Myers Grand on Friday, April  
4, has been sufficient to arouse in-  
tense interest among local amusement  
lovers. The great charm of Mr. Spen-  
cer's work is its absolute cleanliness  
and if there is anything that should  
attract it is purely on the stage.  
Messrs. Nixon & Zimmerman have  
spent money prodigally in equipping  
"Miss Bob White" and it is doubtful  
if anything not exclusively a specta-  
cle has been seen in this country  
to equal it in scenic or costume dis-  
play. A great star cast will be seen  
here in Miss Sylvia's support and the  
ensemble of eighty artists which  
appears in the performance makes  
it an event of no little importance,  
theatrically, to this city.

"The Village Postmaster" seems to  
have some peculiar quality of strong  
human interest which makes it ap-  
peal to all classes of people. You  
can't tell whether it's a gallery play  
or a parquetry play, for it seems to hit  
both in about the same manner.

During a recent long run in New  
York, an individual who likes to  
study audiences, went up during the  
last act into the top gallery and  
found a considerable number weep-  
ing. Then, descending to a box,  
where he had seen some friends, he  
quietly stole in, when a lady, one of  
New York's swiftest society ladies,  
turned to him with the tears actual-  
ly rolling down her cheeks. The in-  
vestigator was satisfied that the  
heart of the bootblack, of the million-  
aire, was made of about the same  
material and real pathos appealed to  
them both alike. There are, however,  
fifty laughs to one tear in "The Vil-  
lage Postmaster," which will be the  
attraction at the Myers Grand, on  
Friday, April 18, and no doubt will  
play to very large audiences.

**Curious Advertisements.**  
The London papers, especially, fre-  
quently furnish curious and amusing  
advertisements. The following are  
taken from a collection recently made:

"A lady wants to sell her piano as  
she is going abroad in a strong iron  
frame." "Furnished apartments  
suitable for a gentleman with folding  
doors." "Wanted a room by two  
gentlemen about thirty feet long and  
twenty feet broad." "Lost, a col-  
lege dog by a man on Saturday answer-  
ing to Jim with a brass collar round his  
neck and muzzle." "A boy wanted  
who can open oysters with refer-  
ences." "Bull-dog for sale; will eat  
anything; very fond of children." "Wanted, an organist and a boy to  
blow the same." "Wanted, a boy to  
be partly outside and partly behind  
the counter."—The Boys World.

**Making a Mistake.**  
Some men make a mistake by dis-  
continuing their advertising when  
business is dull. Others make a  
mistake by neglecting to change  
what is in their space because busi-  
ness is dull. It would be just as rea-  
sonable for a newspaper to republi-  
can the same items day after day be-  
cause there was not anything happen-  
ing to take the place of that which  
was published yesterday. Such a  
newspaper would lose many of its  
subscribers because the average per-  
son does not care to read a second  
time the trivial items which are giv-  
ing in the papers from day to day.  
If business is dull, the merchant  
might make it lively by publishing  
some business news which would cre-  
ate talk and get people into the habit  
of coming to his store. If values are  
good enough, they will create busi-  
ness any time or any season. No  
matter how much or how little others  
may be doing there is always a pos-  
sibility for more business as the re-  
sult of better advertising.—Advertis-  
ing World.

## HIGH PRICES OF BEEF ENRICH HOLDERS IN RURAL DISTRICTS

The Farmers Are Unusually Prosperous--Pork and Mutton Also Higher, and Demand for Poultry is Heavy--Owing to Lack of Corn.

Farmers who have cattle for sale are among the most fortunate in the entire industrial system of the country. Not for twenty years have they received as high a price for beef as they are getting today, and packers and meat dealers generally are agreed that the producers have the market so well in hand that they will probably get even higher prices during the coming months, not only for beef, but also for pork and mutton.

The wage-earners of the country, all busily employed and with plenty of money to spend for the best of food, are furnishing the demand that pushes up the prices, but there are a number of incidental features of the situation which help out.

**Lack of Corn for Feed**  
Among these is the short corn crop of last year, which has resulted in making all food animals light in weight, because the feeders desire to economize their corn as much as possible.

In addition the farmers are holding back all breeding stock in order to enable them to reap still richer profits in the coming years. From this results the peculiar fact that inferior cattle, such as cows and heifers ranging all the way from "betracks" to reasonably plump animals, have

maintained prices as firm relatively as the good stock.  
The farmer's ability to hold live stock off the market was never as good before as now, and he is using it to the limit, keeping the animals until they cease to be growers or producers and become feeds on high priced corn.

**Farmers Get Profits**  
The consumer is paying the highest of prices for his meat, but the heavy profit is not resting in the retailer's or packer's hands, but slips along into the farmer's pocket and gives him abundant prosperity.

All of these statements have been proved over and over by the official, weekly and monthly reports of receipts of live stock, their weights and prices as published each day in the regular market reports.

**Big Demand for Poultry**  
The universal attempt on the part of the consumer to avoid paying current high prices for meats and secure some cheaper substitute is shown in the enormous demand for poultry. Never in the history of the produce trade has poultry been in such large and steady demand for months at a time as during the drought in the corn belt last summer. Except for a brief and unusual period during world's fair year were prices of poultry as high as they are now running.

### BIGGEST IN THE WORLD.

The New Government Printing Office at Washington.

If the shade of Herr Gutenberg could come back to earth when the new government printing office is completed and roam through that establishment he would note a few changes in the art of which he is the father. The biggest printing shop in the world will be established under the roof of the mammoth building now nearing completion on North Capitol street.

The printing bills of Uncle Sam are enormous. He is a great promoter of publicity. He drives thousands of men day and night to turn out millions of copies of every kind of printed document from a single leaflet to a fifty-volume set of 600-page books. He publishes a daily journal during a portion of the year. He loads entire cars with bulky documents and ships them thousands of miles to ultimately gladden the heart of the ragman. He runs a bindery and turns out marvels of leather and satin coverings. He has an illustrating department and makes maps and beautiful half-tone pictures. And all this work has been done heretofore in a ramshackle old shop, so shaky that every workman has kept one eye on his case and the other on the nearest exit. But there will be no excuse for criticism in the new building. It will be a marvel of convenience, safety and equipment.—Washington Star.

### Conservatism.

"The conservative is as necessary as the radical. The conservative keeps the reformer from going too fast and plucking the fruit before it is ripe. Governments are only good when there is a strong opposition, just as the planets are held in place by the opposition of forces." So says Fra Elbertus in the Philistine for January 1902, and we all agree to the truth expressed. There are some who feel that in this state in the reform movements of the past few years there has been more than one attempt to pluck the fruit before it was ripe, and indeed, the effort was so vigorous as nearly to uproot the whole orchard. These, while they do not think of abandoning the promised reforms, prefer a more conservative management and they want it soon, lest waiting too long there be nothing left to conserve. People earnest for the desired achievements, yet wishing to move at a more even pace, are outspoken for J. M. Whitehead, as our next governor.—Broadhead Independent.

### Not Honey.

"Mr. Depew," said a gentleman, speaking recently of the senator to the New York Times, "pays a compliment as gracefully as any man, and one would never expect to see him fail to rise to the occasion. It was therefore a matter of considerable surprise to me when, at a dinner where the senator was a guest, I observed that he allowed to pass several opportunities to compliment a charming young lady of the company. Afterward I commented upon the omission to Mr. Depew himself.

"You observed the lady?" he asked.  
"Yes," I answered.  
"You noticed that she might be extremely sensitive?" he went on.  
"Yes," I replied, though, truth to

tell, I hadn't considered the lady's disposition at all.

"Well," said Mr. Depew slowly, "I once told a sensitive girl that I thought her as sweet as honey, and the result was disastrous."  
"How so?" I questioned, though I ought to have known better.  
"The senator answered me in a whisper, 'Next day the lady 'had hives.'"

### Woman Jumps Into River.

Peru, Ind., March 29.—Miss Marie Freeland, 27 years of age, committed suicide by jumping into the Wabash river. First she went to the home of her sister, Mrs. Charles Daniels, where a reception was being held, and slipped a note under the front door. The body was found in five feet of water twenty feet from the shore.

### Priest Is Shot.

La Junta, Col., March 29.—Rev. Father J. H. Brinker, pastor of the Roman Catholic church in this city, was perhaps fatally wounded by the accidental discharge of a revolver, which, it is supposed, fell from a table to the floor. The bullet penetrated Father Brinker's abdomen.

### Turkey Calls 90,000 Troops.

Constantinople, March 29.—The Turkish government has decided to call to the colors 90,000 irregular troops. This mobilization is ostensibly for the annual maneuvers, but in view of the conditions in Macedonia considerable significance is attached to the movement.

## A Friend's Advice.

WILL OFTEN HELP YOU GREATLY

Read What a Janesville Citizen Says.

You may hesitate to listen to the advice of strangers, but the testimony of friends or residents of Janesville is worth your most careful attention. It is an easy matter to investigate such proof as this. Then the evidence must be conclusive. Read the following:

Mr. H. W. Rodgers, carpenter, of 210 South Main street, says:—"My wife had kidney complaint and rheumatism for five years, suffering a great deal from pain across the loins. Doan's Kidney Pills, sold by the People's Drug Co., brought much longer for and gratifying results. At first there was no visible change and she came to the conclusion that they were like all other remedies she had tried, but finally the itching and the distress in the small of her back disappeared."

For sale by all dealers. Price, 50 cents. Foster-McIlwain Co., Buffalo, N. Y., sole agents for U. S. Also on sale at King's Pharmacy.  
Remember the name Doan's and take no other.

# HUMORS

Spring's Inheritance from Winter.

Waste matters which the kidneys, skin and other organs were too torpid (in the cold days) to take care of, and cannot take care of now without help, there is such an accumulation of them.

They litter the whole system.

Pimples, boils and other eruptions, loss of appetite, that tired feeling, bilious turns, fits of indigestion, dull headaches and many other troubles common in Spring are due to them.

**Hood's Sarsaparilla** removes all humors, overcomes all their effects, strengthens and tones the whole system.

Don't deny yourself its benefits this Spring.

"I have taken Hood's Sarsaparilla as a Spring tonic for several years and have derived great benefit from it. I recommend it to all who have that tired feeling, loss of appetite or impure blood." FANNIE FISHER, 2018 High St., Des Moines, Ia.

EASTER TIDE.

Little four year old Mary, down on the ground in the corner by the fence was busily engaged in brushing the dead leaves away from a little white flower, that was struggling to push its face up into the sunlight. Her mother spied her and said:

"What are you doing, my child, down there in the dirt?"

"Oh, mama, I've found an Easter lily and I'm just helping it to get out."

Then the mother bent over the little girl and said,

"That's not a lily, my child, that's just one of God's little white flowers. The little mind was not quite satisfied and with lingering steps as she turned away, the little girl said,

"Well, I guess, God thinks just as much of the little flower as He does of the lily, or He wouldn't be so careful of it."

And then the mother assured her that God had no pet flowers, but that the pure white lily, was the emblem of Easter, because it spoke of purity.

The Easter celebration, coming, as it does, at the dawning of a season, when nature unlocks her store house, and bud and blossom spring into life spontaneously, is full of significance. The life giving current from the smallest sprig of vegetation to the stately oak, has been performing a silent mission beneath the surface, where no eye can penetrate. The dead grasses and the barren forests, speak of decay and as the winter blast sweeps over the dreary landscape, no token of resurrection or life is visible, but the same Hand that decorates the meadows, and paints the blossoms with golden hue, is at the helm, directing the little tendrils that grope their way in the darkness, and encouraging them to take hold with firmer grip.

When the mission is accomplished and the genial sun light has dispelled the white mantle that covered the earth like a shroud, the same Hand directs the current upwards, and bud and blossom respond to the touch of creative genius and preserving care. Miracles in every day life, so common that they pass unrecognized, and yet so subtle, that Professor Pearson, with all his fine spun sophistries, will never be able to explain.

All over Christendom tomorrow, the day known as Easter Sunday will be recognized. In every land where church spires remind the people of the Sabbath, glad toned bells will call to service, and song and anthem will cheer the heart, while invocation and eulogy will turn thought back to the sepulchre of a risen Lord. The incidents of the resurrection morning, so vividly portrayed in song and story, will be repeated, and a world's Redeemer will be worshipped.

There are two days in the year when humanity seems akin. One of them is Christmas, the other Easter. One commemorates the birth of a life, so unique and yet so sacred, that all Christendom bows in reverence at the mention of His name. The other celebrates the triumphant closing of this life, after a few brief years of public ministry. Both are full of significance, but the latter is the doorway to the life beyond, and stamps the seal of hope and immortality.

It were better for humanity if this kinship suggested by the spirit of Christmas and Easter tide, were cultivated throughout the year. The brotherhood of man is a title of lofty ideals, but meaningless in large degree. The first law of life is self preservation, and the same law is all too frequently the whole decalogue.

The horizon is limited, and the range of vision prescribed. Our own home, our own vocation, are all absorbing, and while it is natural and right that these interests should command close attention, it is well to remember that there are other homes and other avenues where men and women are struggling to work out destinies. Failure or success

may not seem important from our view point. That all depends upon how largely the spirit of the Master absorbs the life.

The fortunes of life are as varied as the fortunes of nature. In some cases, ease and luxury, the product of wealth, dispel care and anxiety. Like the Easter lily that blooms in the conservatory, when the outside world is gray and forbidding life is perpetual sunshine. But like the cultivated lily, these conditions are exceptional. The average life is not a hot house existence.

While it is natural to envy wealth, and the environments that it procures, wealth is only a fragment of life, and it is possible to find in these surroundings the same barrenness and discontent, so common to humanity.

It is beyond the range of possibilities for any life to serve out its normal allotment, without encountering seasons of depression and suffering. Death comes into the family circle, or disease blights a life, fortune refuses to smile and the outlook is as forbidding as the gray earth and sombre cloud, when the March wind sweeps over it.

At such times the Easter lily, with its fragrance and pure white blossom, is forgotten, but hid away in an obscure corner, is the modest little white flower, struggling to get out into the light, contending against the storm, and rugged environments, encouraged by a Hand that never wearies, and an eye that is ever watchful. It is Resurrection morn for the frail little flower, and it is a satisfaction to know that the God of nature, who guards the destiny of the wind flower, is also the guardian of humanity in all its complex conditions.

The child was right when she said that God thought as much of the little flower as He did of the lily, and the mother was right when she assured the little girl that God had no pets.

The world will be brighter and infinitely better, when the spirit of the Master suggested by Easter, possesses in larger degree the spirit of humanity. The seasons come and go with such regularity, that no comment is expressed. Nature works so quietly, that the Power behind it is not recognized. While this power is limitless, so far as nature is concerned, it is powerless to accomplish some things in the realm of humanity, unaided.

There are certain kinds of work delegated to hand and brain, that are intensely human. Important work that will not be done by supernatural forces, and that will remain undone, unless the heart of humanity, inspired by Divine impulse, lends a helping hand.

There are many barren places, where a touch of human sympathy is necessary to revive hope, and resurrect from the ashes of disappointment a blossom as modest as the wind flower. It may not be as gorgeous as the Easter lily, but it may mean infinitely more to the recipient.

There are barren corners in every life, where it is not possible for the lily to flourish, but there are none so desolate, that human sympathy may not penetrate, and cause to blossom.

Life is intensely practical and real. The lessons of Easter tide, will be studied to some purpose, if the hat and gown are forgotten, in the fragrance of the lily, and the purity that it symbolizes.

Human hands may roll away the stone from sepulchres of blighted hope and blasted ambition, and out of the wreckage will blossom the choicest flowers, because humanity cared for humanity.

## OUR OBJECT.

The Morning Republican enters the journalistic field for a purpose—to tell all the truth about candidates and discuss fairly the issues before the people from a republican standpoint. Our paper will have fulfilled its mission when the polls close next Tuesday. The time is so brief that instead of establishing a plant of our own we have availed ourselves of the generous offer of The Democrat to be a portion of its big printing establishment. For a day or two at least the Morning Republican will use only these three columns.

The Morning Republican will advocate the candidacy of John W. Groves for mayor, A. T. Webb for treasurer and all other republicans whose names appear at the head of this column.—Madison Morning Republican.

The above announcement appears in a late issue of the Madison Democrat, and explains conditions in the capitol city. The Madison Journal, the only republican paper in the city, has bolted the ticket and refuses to publish the names of candidates except for pay. The paper has come out squarely in support of the democratic ticket, and the republican city committee has bought space in the Madison Democrat for campaign purposes.

The editor of the Madison Journal is a novice in politics, and he has managed to put his foot in his mouth several times of late. His last venture indicates that both feet are involved. The Journal pretends to support the governor, but a spy glass is frequently required to discover where the support comes in. The paper also pretends to be a republican journal, but the title is something of a burlesque.

The republicans of Madison have placed in nomination a strong republican ticket, composed of leading citizens, but it fails to meet the esthetic approval of the Journal, and so is

turned down. The local fight is unfortunate for the party, and will have an influence on the state campaign in the governor's county. It requires more than culture and college breeding to conduct a party organ. What Madison has needed for a good many years is a live republican newspaper, that can afford to stand alone, without state support. The field is ripe for that kind of a paper, and it would receive liberal support.

## WHITEHEAD ON TAXATION.

Special attention is called to the supplement published with this issue of the Republican Journal, relating to taxation matters in general, and Senator's Whitehead's record in particular. It will be seen from a careful perusal of this bit of history, that if Senator's Whitehead's bill had become a law, it would have saved the tax payers over \$500,000 this year. The failure to adopt it increased the taxes of Lafayette county from \$22,642.77 one year ago, to \$34,464.71 this year, an increase of \$11,821.94.

Perhaps our own senator, H. C. Martin, will explain to the people why he voted against the bill. The people of his senatorial district have a right to know why his vote was not recorded in favor of relieving them of this \$14,000 burden.—Darlington Journal.

The supplement referred to by the Journal has been sent out by many republican newspapers throughout the state. Conditions in Lafayette county are duplicated by every county in the state, and the one-mill tax is responsible. Senator Whitehead opposed the measure.

If politics disturbs your Sunday meditations, dismiss the subject from your mind by deciding to vote the straight republican ticket. The candidates are all good men and everyone of them should be elected. The time may come when politics will be barred from city elections, but until that time comes, every republican should be loyal to his party.

Some one asks the very pertinent question, "How shall I vote?" The process is very simple. Enter your precinct shortly after breakfast, take a ballot and spread it out before you in the booth, grasp the pencil firmly in the right hand, and mark a cross at the top of the republican column.

Tomorrow is Easter, don't forget to go to church. Monday is wash day, a good day to keep out of sight. Tuesday is election day, when every able bodied man should be in evidence at the polls. Don't stay home and shirk responsibility and then kick for a year about poor officials.

## PRESS COMMENT

Oshkosh Northwestern: It is said that one of the reforms of the future will be in the nature of paper socks, which will be worn until soiled and then discarded for a fresh pair. If this time ever comes, it will certainly be a great boon to devoted wives and mothers who now spend many weary hours darning socks for their male relatives.

Men and women are called upon in a thousand different ways to exercise discrimination in social contact where there can be no rule, but if they avoid mistakes and if they preserve their little title to refinement they do it because they know pretty close to the principle laid down in the golden rule, and not because they are graduates of universities.—Mantawoc Pilot.

A man who does things is one who is alive to the very tips of his fingers. He is alert, always on the watch for opportunities. He does not give idleness time to dissipate him. He fights against that common malady known as a "tired feeling" and conquers it.—Appleton Crescent.

Chicago people are in a disagreeable position, unless the owners of buildings running furnaces, agree to take coal all the year around, the coal dealers will deliver them none at all. They cannot use gas part of the time and coal the rest of the year. This thing of American freedom is becoming a burlesque.—Racine Journal.

If it were not for death, how wretched this world would be. Death is the poor man's friend, the rich man's terror, the only rulers that favor cannot buy.—Chippewa Catholic Sentinel.

Milwaukee Sentinel: The Kansas preacher who has declared that the serpent which tempted Eve was not a real reptile will have to revise on the natural history of Eden or disseminate his scientific knowledge outside the Methodist church.

George Baumann left for Chicago today to spend Easter.

## FLED TO ROCKFORD TO GET MARRIED

George Clark and Miss Frances Clithero—Had Difficulty in Getting a License.

George Clark and Miss Frances Clithero, both of this city left this morning for Rockford. On their arrival in the Forest City Mr. Clark had no time in making application for a marriage license. He gave his age as twenty years and his prospective bride's as nineteen. But there was where the trouble commenced. Mr. Clark not being of age was notified that the Illinois law prevented his marriage without the consent of his parents. Then the anxious and much worried young man went to the long distance phone and called up his father in this city asking him to come to Rockford and approve of the proposed match.

Although surprised Mr. Clark at once gave his approval. When asked by a Gazette man this afternoon Mrs. Clark, the mother, stated that she knew her son was in Rockford. She further stated Mr. Clark might go to Rockford and right matters. Miss Clithero's relatives knew nothing of her departure till notified by phone from the Gazette office.

The prospective groom is the son of Mr. and Mrs. David Clark, South Main street. Miss Clithero resides at 120 N. Academy street.

## HISTORY SECTION OF ART LEAGUE

Several Troubles in European States Reviewed—"Venus de Milo" and "Flying Mercury."

At the 11th regular meeting of the history section of the Janesville Art League, with Mrs. James Waddie yesterday afternoon, the uprising of the French and Austrian, Sicilian, Roman, Italian trouble, together with Tuscany was the theme.

The program was carried out in full:

The French Invasion—Miss Nellie Sanborn.

Under Austrian Oppression—Mrs. Mae Smiley.

The Carbonari—Mrs. Emma Wells.

The Year of Revolution, (1848)—Mrs. Ada Kimberley.

What was the cause of the universal discontent in Italy? Answers given by several members.

Current event on the "Venus de Milo" and "Flying Mercury" caused much discussion on account of the rejection of these pieces of statuary by resolution of the school board of Charles City, Iowa.

At the close of the session Prof. C. L. Wells gave a very instructive address on the care of our body, manner of breathing properly, etc., using a chart in connection. Miss Mae Hamilton followed Prof. Wells with a brief talk on Health Culture.

L. B. WOOLKEY LOCATES HERE

Expert Cement Sidewalk Builder From Rock Island, Ill.

L. B. Woolkey, an expert cement sidewalk builder from Rock Island, Ill., has arrived in the city and has associated himself in the cement sidewalk building business with the local lumber firm of Filfield Bros. & Co. They will handle the famous Atlas make of cement which is regarded by builders as the best on the market today. It wears the longest and is no more expensive than the cheaper makes. The Atlas make has stood the test for years and has been used more extensively in Chicago than all other makes combined. As a cellar floor covering it has no equal. No matter who does your work insist on having the Atlas cement used and you can rest assured that you have material that is made right, wears right and is sold at a price that is right. The building of cement walks in Janesville this spring and summer will be carried out on a larger scale than ever and there is little doubt but what the firm of Filfield Bros. & Co. will do fully their share of the business.

Easter at St. Patrick's Church

The Easter program at St. Patrick's church tomorrow will be as follows:

Vidi Aquam—Gregorin.

Kyrie Eleison—W. A. Fiske.

Gloria in Excelsis—H. Farmer.

Credo—W. A. Fiske.

Offertory—"Prince of Peace"—Hammerl—Mrs. Oscar Pyper.

Sanctus; Benedictus—Gounod.

Agnus Dei—Millard.

The soloists for the mass: Mrs. Oscar Pyper, soprano; Miss Margaret Joyce, alto; Mr. Wm. Garbutt, tenor; Mr. D. J. Luby, baritone; Mr. D. D. Bennett, baritone and director; Miss Marie McClerman, organist; Prof. J. M. Smith, violin.

Sent to the Reform School

John Wolletz, the fourteen year old son of Anton Wolletz, was this morning sent to the reform school at Waukesha until he is twenty-one by Judge Filfield. The charge against the boy was incorrigibility, his parents being unable to do anything with him. He has been mixed up with a lot of boys that have been stealing old iron, brass and other metals from the factories and machine shops and selling it to junk dealers and peddlers. There are several more boys in the crowd that the police have their eyes on and they will be given a chance to explain their actions.

John Koerner.

John Koerner, the candidate for School Commissioner of the Fourth Ward, should be elected. He belongs to the class of younger republicans, who are recognized in the present campaign, and he possesses the ability to represent the Ward well, on the school board, vote for him, and a good man will be elected.

Reserve next Friday evening for a concert at the Court Street church given by Lawrence University Mandolin and Glee club.

FIVE JUDGES ARE UP IN WISCONSIN

Five circuit judges are to be elected in Wisconsin next Tuesday. In Milwaukee alone is there any contest. Those against whom there is no opposition are Judge George W. Burnell of Oshkosh, third circuit; Judge Charles M. Webb of Grand Rapids, seventh circuit; Judge Eugene W. Helms of Hudson, eighth circuit; Robert G. Siebecker of Madison, ninth circuit. In Milwaukee, the second circuit, the sitting judge, Warren D. Tarrant, is opposed by the nominee of a partisan convention, Lyman G. Wheeler, and by an eccentric personal candidate, Danforth Becker, who is expected to cut up the democratic vote sufficiently to elect the republican nominee, Judge Siebecker is a brother-in-law of Gov. La Follette.

Fred P. Grove.

The republican candidate for supervisor of the Fourth Ward, is a product of Janesville, and well qualified for the office. Mr. Grove is in the printing business, and is identified with the best interests of the city. He should be elected by a handsome majority.

## PUSHING WORK ON THE ELECTRIC ROAD

Ten Teams and Twenty-Five Men Are at Work Grading on Line in This City.

Work on the interurban electric railway is progressing rapidly in this city. Ten teams and about twenty-five men are at work on the line. The grading has been completed from Oak to Center streets, six blocks on Franklin and ties have been laid from Oak to Holmes streets, a distance of four blocks.

The work of laying rails will begin in earnest on Monday morning and in less than a week the construction train will be running in the city. Contractor John Peters says that the power house and chimney at Beloit are finished and the machinery is being rapidly put in position.

Grading will begin at the Beloit end of the road and will work this way as rapidly as possible. The fine weather of this week has greatly facilitated the work.

SUNDRY CIVIL BILL IS NOW COMPLETED

In Includes the Additional \$25,000 Appropriation for the Janesville Postoffice.

Washington, D. C., March 29.—The sundry civil appropriation bill, the most important of all government supply measures, was completed today by the House committee on appropriations. The bill appropriates \$49,316,395, being \$12,463,042 less than the regular and supplemental estimates, and \$12,679,612 less than the appropriations for the current fiscal year. It contains the additional \$25,000 appropriation for the proposed Janesville building.

Joseph Holt, of Darien, was called to Milwaukee and from there to Chicago last Monday and from there to Chicago by telephone by a series of tragedies resulting in the death of his father, Wm. Holt, of heart disease and the death of an aunt, Miss Katherine Holt, and serious injury to another aunt, Mrs. Lucy Ahearn from a railway accident. Miss Holt and Mrs. Ahearn had been notified of the death of their brother and were on their way to his home. In alighting from the street car they stepped on the railway track, not noticing a coming train and were struck by an engine. Miss Holt was instantly killed and horribly mangled. Mrs. Ahearn was saved from a like fate by the aged fireman, who was so badly injured that it is thought that he cannot recover. Mrs. Ahearn was seriously and the outcome of her injuries is uncertain.

TELEPHONES INTO THE FARM HOUSE

Over 300 Are Now in Rock County, and Are Being Extended Rapidly in Other Counties.

Farmers' telephones are extending rapidly in this section of the state. More than 300 farm houses in Rock county have this convenience and the applications for extensions are so numerous that it takes a large force of men to keep up with the work.

"The building of farmers' telephone lines is at present occupying the minds of the farmers in Waukesha county," said George McKerron of Sussex in Milwaukee yesterday afternoon. "We have not gone into the business extensively yet, as we are just beginning, but we have contracted for about 15 miles and the prospects are that we will have to build that much more before the season is over. The telephone is as great a convenience to the farmer as to any merchant or business man."

"The country west of us is a veritable net work of farmers' telephone lines," said George Cox, of Mineral Point, at Milwaukee, yesterday, "and we are just awakening to the value of telephones for farmers. We are already engaged in building lines, which it is our desire and expectation to connect with the lines west of us and eventually with the independent exchanges in the small cities around us. The telephone business is still in its infancy."

Run Over by a Wagon

Yesterday afternoon a son of the Weber, a shoe maker at the Lion Shoe store was knocked down and run over by a wagon and quite seriously hurt. The little fellow is three and a half years old and with his brother about six years old went out for a walk. They had not gone far before they were run down by the wagon. The youngest boy was knocked down and badly bruised about the back and shoulders and the side of his face skinned. Two fingers on his left hand were badly smashed but the doctors may be able to save them. Dr. Woods was called at once and fixed the little sufferer up as comfortable as possible and this morning he was feeling much improved and will undoubtedly pull through all right. The name of the person driving the wagon has not been ascertained.

### DOES RUSSIA EXCLUDE JEWS?

Resolution Introduced in the House Seeking Light on the Subject.

#### NAME DEMOCRATIC CHAIRMAN

J. M. Griggs of Georgia Chosen to Head the Congressional Campaign Committee—Pension Commissioner Evans' Resignation Forwarded to President.

Washington, March 29.—Most of the day in the house was occupied by discussion of the President's policy of vetoing bills to remove the charge of desertion from the records of soldiers. The subject came up with private pension bills, 215 of which were passed.

By unanimous consent a bill was passed to confer jurisdiction upon the court of claims to adjudicate the claims for duties collected on goods going into Porto Rico between April 11, 1899, and May 1, 1900. The bill provides that the claims found due shall bear interest at 6 per cent. The refund of these duties is made necessary by the decision of the Supreme Court.

Mr. Cannon, from the committee on appropriations, reported the sundry civil appropriation bill, and gave notice that he would call it up Monday.

Representative Goldfogle of New York introduced the following: "Resolved, That the Secretary of State be and he is hereby directed to inform this House whether American citizens of the Jewish religious faith, holding passports issued by this government, are barred or excluded from entering the territory of the empire of Russia, and whether the Russian government has made or is making any discrimination between citizens of the United States of different religious faith or persuasion visiting or attempting to visit Russia, provided with American passports; and whether the Russian government has made regulations restricting or specially applying to American citizens, whether native or naturalized, of the Jewish religious denomination, holding United States passports, and if so to report the facts in relation thereto, and what action concerning such exclusion, discrimination or restriction, if any, has been taken by any department of the government of the United States."

Griggs Is Chosen Chairman. Washington, March 29.—James M. Griggs, congressman from Georgia, was unanimously chosen chairman of the Democratic congressional committee, at a meeting held in the minority caucus room at the capitol. The only other name presented to the committee for the chairmanship was that of Representative Cowherd of Missouri, but it was withdrawn before a vote was taken.

A committee consisting of the chairman, Griggs, Representatives Williams of Missouri, Rupert of New York, Richardson of Tennessee, Williams of Illinois, Jackson of Kansas and Senator Culberson of Texas were appointed to perfect a plan of organization for the ensuing congressional campaign and select the remaining officers of the committee subject to the ratification of a meeting of the full committee to be held April 11.

It is the general understanding that this committee, among other things, will report in favor of the creation of an executive committee of which former Congressman Ben T. Cable of Illinois probably will be the chairman, and of a finance committee of which Louis Nixon of New York probably will be chairman. The following were selected to represent states which have no Democratic representation in congress:

Connecticut, Robert E. De Forrest; Iowa, G. A. Hoffman; Maine, H. J. Brown; New Hampshire, Henry H. Hix; Oklahoma Territory, Harry Ba-

Wisconsin, E. C. Wall; Wyoming, C. T. Arnold; Indian Territory, Sam Powell.

The committee heard the protests of a faction of the Democracy of the District of Columbia against John L. Norris, who was elected to represent the district at a former meeting of the committee, but decided to disregard the protests.

May Discipline Taylor. Washington, March 29.—The attention of the president having been called to alleged interviews with Assistant Secretary of the Treasury Taylor in a number of newspapers, in which he had put himself in the position of opposing certain provisions of the Chinese exclusion bills now pending in congress, Secretary Shaw has been requested by the president to examine into the matter and report to him as to the truth of the allegations. As Secretary Shaw is in New York no action will be taken by him in the direction of carrying out the president's instruction until his return.

Sundry Civil Bill. Washington, March 29.—The sundry civil appropriation bill, the most important of the government supply measures, was completed by the house committee on appropriations. The bill appropriates \$19,316,395, being \$12,463,042 less than the regular and supplemental estimates, and \$12,579,512 less than the appropriations for the current fiscal year.

Commissioner Evans Resigns. Washington, March 29.—Commissioner of Pensions Evans has placed his resignation in the hands of the president. It will not take effect until some important position in the diplomatic service is found for him. The pension committee appointed at the last annual encampment of the G. A. R. to investigate the affairs of the pension bureau has made its report to the president. It has not yet been decided when the report shall be made public, if at all. It is stated that the policy of Commissioner Evans will be continued by his successor.

Adams May Succeed Rodenberg. Washington, March 29.—Up to the present time James R. Garfield has not indicated to the president his intention of accepting the place of civil service commissioner, which was tendered to him, to succeed William A. Rodenberg, resigned. In the event that Mr. Garfield should finally conclude not to serve it is said the president is very favorably disposed toward George Everett Adams of Chicago. Mr. Adams served four terms in congress and it is understood that his name was considered before the offer was made to Mr. Garfield.

To Let Cuba Deal with Neutrality. Washington, March 29.—President Roosevelt will not interfere in the sentence imposed by the Cuban court upon Neely, Rithbone and Reeves, convicted of the Cuban stamp fraud. The three Americans are expected to appeal to the supreme court of the island, and its decision will finally dispose of their cases. It is of course possible that Senator Palma, when inaugurated president, may exercise his pardoning power, but if he does so it will not be done by the request of the United States.

Hayes Favors Nelson Bill. Washington, March 29.—At the hearings before the house committee on commerce on the Nelson bill establishing a department of commerce and labor, Messrs. Hayes, secretary of the Knights of Labor, and Banker of the San Francisco chamber of commerce and ex-Governor Bradford L. Prince of New Mexico spoke on the measure. Mr. Hayes, in behalf of the labor organizations represented by him, gave his adherence to the inclusion of the labor branch, which has been objected to by some of the labor organizations.

Washington Notes. Washington, March 29.—Assistant Secretary Spaulding of the treasury department has announced that hereafter in the case of Americans going abroad and taking sundry articles with them the rule will be that "personal effects may be examined by a customs officer before leaving, and an itemized descriptive schedule prepared, and then upon the return of the person the goods will be exempt from duty, provided they tally with the list."

Herman Ridder, editor of the New York Staats Zeitung, with a party of friends called at the White house and paid their respects to the president. It was announced that President Roosevelt will deliver the diplomas at the graduating exercises of the naval academy at Annapolis on May 2, the advance date set in order to relieve a dearth in commissioned officers.

Senator Hanna called at the white house and spent some time in consultation with the president. The object of his visit was not disclosed. Representative Shafroth of Colorado introduced a bill prescribing the size of the field of the United States flag and the arrangement of stars. The field shall be square and one-third the total length of the flag. The stars of the thirteen original states are to be in a circle, surrounding the stars of the thirty admitted states in the form of a star, with the stars of the last two admitted states (Wyoming and Utah) temporarily one on each side of the interior.

### EASTER TRADE IS VIGOROUS

Great Volume of Business, with Steady Prices the Feature.

#### DECLINE IN WHEAT EXPORTS

Western Receipts 2,747,000 Bushels. Against 4,052,000 a Year Ago—Minor Cereal Shipments 138,000, Compared with 2,900,000 Bushels in 1901.

New York, March 29.—"Favorable weather greatly facilitated Easter retail trade, the volume of transactions in all lines of wearing apparel being of exceptional magnitude. Activity was by no means restricted to the specialties, however, the general distribution of merchandise exceeding that of previous seasons, with prices well maintained. A distinct evidence of the vigor of legitimate trade is found in the decline of only 21.4 per cent in bank exchanges in New York, notwithstanding the fact that transactions at the stock exchange were not more than a third of those in the corresponding week last year, while at other leading cities clearings exhibited a gain of 2.8 per cent over last year and 31.5 per cent over 1899." R. G. Dun's weekly Review of Trade thus sums up conditions. The review continues: "Demands for an eight-hour day after May 1 by the blast furnace men was the disturbing feature in the iron and steel industry, and this is not causing much alarm, as an agreement will probably be reached during the intervening month. Production is now beyond all previous records and the movement of coke is ample, although the early opening of lake navigation may withdraw some of the transporting facilities, which cannot well be spared.

"A severe reaction appeared in cotton, due entirely to the excessive speculative purchases, which made the market top-heavy. "Weakness appeared in the cereals early in the week, when there was a certain unanimity about encouraging weather reports and increased acreage. Subsequently there was a partial recovery, owing to less cheerful news from Kansas and Oklahoma, but the net result for the week was a decidedly lower range of prices.

"Wheat exports materially declined from the satisfactory record of 4,052,000 bushels last week to only 2,747,000 bushels this week, which compares with 2,936,332 in the same week last year. There was a decrease in western receipts to 2,747,000 bushels, against 4,052,000 a year ago, but the difference in arrivals of corn was less striking—1,976,064 bushels, against 2,682,918 a year ago. Atlantic shipments of the minor cereal were only 138,244 bushels, compared with 2,946,461 in 1901. According to an analysis of the official returns by a Liverpool authority, there will be only 13,000,000 bushels of wheat in this country at the close of the crop year, but the statement is based on exports for the last four months of half as much as the record-breaking shipments of the preceding eight months, which is extremely improbable. A further alteration in the figures should be made to allow for an underestimate of the total crop.

"Failures for the week numbered 205 in the United States, against 206 last year, and twenty-two in Canada, against twenty-nine last year."

### A Wife Says:

"We have four children. With the first three I suffered almost unbearable pains from 12 to 14 hours, and had to be placed under the influence of chloroform. I used three bottles of Mother's Friend before our last child came, which is a strong, fat and healthy boy, doing my housework up to within two hours of birth, and suffered but a few hours' pains. This liniment is the grandest remedy ever made."

### Mother's Friend

will do for every woman what it did for the Minnesota mother who writes the above letter. Not to use it during pregnancy is a mistake to be paid for in pain and suffering. Mother's Friend equips the patient with a strong body and clear intellect, which in turn are imparted to the child. It relaxes the muscles and allows them to expand. It relieves morning sickness and nervousness. It puts all the organs concerned in perfect condition for the final hour, so that the actual labor is short and practically painless. Danger of rising or hard breaths is altogether avoided, and recovery is merely a matter of a few days. Druggists sell Mother's Friend for \$1 a bottle. The Bradford Regulator Co., Atlanta, Ga. ### MANY BURGHERS ESCAPE.

Large Force of Boers Got Through Gaps in British Lines. Pretoria, Transvaal Colony, March 29.—About 1,500 Boers under Delarey, Liebenberg, Kemp and Wolmarans were within the area of Lord Kitchener's latest movement, but though surprised by the rapidity displayed by the British troops, gaps in the latter's lines enabled most of the burghers to escape. The Boer prisoners include 175 men, including Commandant H. Kruger and ex-Landrost Neethling of Klerksdorp.

Ships Burn at Dawson. Dawson, Alaska, March 29.—A disastrous fire started at midnight Friday in Schambert's store, opposite this city. The slough is used by Yukon river boats for winter quarters. Of the steamers and barges there when the fire started the Glenora and Moun, the property of J. E. Genelle of Vancouver, B. C., have been consumed. The loss so far is \$17,000, and the fire is still raging.

### SURPRISING RESULTS.

A Simple Internal Remedy Makes Remarkable Cures of Catarrh. People who have used sprays, inhalers, salves and washes for catarrh and have found how useless and inconvenient they are, will be agreeably surprised at results following the use of a pleasant, internal remedy in tablet form; druggists everywhere admit that Stuart's Catarrh

Tablets, which they sell at 50 cents for full sized treatment is the safest, most effective and popular of all catarrh remedies.

Nearly all the cheap cough mixtures and throat lozenges contain opiates; these cheap medicines give a temporary relief, especially with little children by destroying their sensation; the irritation in throat, which causes coughing is temporarily removed, not by removing the cause but by deadening the nerves of feeling the irritation is not felt although it is still there and will promptly return.

Stuart's Catarrh Tablets is the best remedy to remove catarrhal secretion, whether in the nose, throat or stomach, because they are composed of wholesome antiseptics Blood root, Red Gum from Eucalyptus tree, etc., when you use these tablets you know what you are putting into your system and not taking chances with cocaine, opiates or similar poisons found in so many catarrh cures and cough medicines.

Dr. Ramsdell in commenting on catarrh cures, says: "I can heartily recommend Stuart's Catarrh Tablets, because they contain no cocaine nor other dangerous drug found in so many advertised catarrh cures. I have known of many cases of long standing catarrh of the head and throat completely cured by the daily use of these tablets for several weeks. One case in particular, which I could not reach with an inhaler or spray and where the catarrh caused daily headaches and a noticeable loss of hearing was entirely cured by this harmless but effective remedy."

Dr. Walworth says: "I never hesitate to prescribe Stuart's Catarrh Tablets for catarrhal headaches and catarrhal deafness because I know them to be perfectly safe for child or adult and have seen many remarkable cures resulting from their regular daily use; because they are advertised and sold in drug stores is no reason why any good physician should seize upon the means of cure wherever found."

Stuart's Catarrh Tablets are especially valuable for catarrhal colds in children because they are pleasant to the taste and may be used freely to break up severe colds and croup at the very beginning.

## PULLED PATRON'S LEG.

Much to the Horror of the Talkative Shoe Salesman the Member Came Off.

John Diehl, of Guttenberg, N. J., has a wooden leg, but the artificial foot receives just as good treatment as its mate. As a matter of fact, states the New York Tribune, Diehl rather prefers the wooden leg to the other, for, as he says: "I picked out the wooden one myself and it's a peach."

Such an excellent member of society is Diehl's wooden leg that its owner is able to walk with scarcely a perceptible limp. Consequently, when he walked into a shoestore at

"GREAT G-G-G-GOODNESS!"

Union Hill, N. J., and asked for a pair of shoes, the clerk noticed nothing unusual about his appearance. It will be apparent from what follows that Diehl is possessed of a remarkably fine sense of humor. Said he to the obliging clerk:

"Gimme a pair o' button shoes." While the clerk was getting down the goods Diehl unfastened his wooden leg and prepared himself for the merry jest that was to follow. The clerk had some difficulty in getting the worn-out shoe off the hickory limb and Diehl observed it, remarking:

"Aw, bend yer back, why don't yer?"

"Kinder stinks, don't it?" said the clerk, pleasantly. With this he bent his back so successfully that he carried away shoe, foot, leg and all and landed on his back into the bargain.

When the boot seller sat up and saw what he had done he was overwhelmed with horror.

"Great g-g-g-goodness!" he gasped. "I didn't mean to do it."

The genial Mr. Diehl was purple in the face, while a negro porter who had stood by started on the run for an ambulance. As soon as Diehl could spare time from the holding of his sides he remarked to the crest-fallen clerk:

"That's all right, young feller, but y' want to be careful how you start to pull off my leg."

Diehl got his shoes at a rate that he himself admitted was "real reasonable."

## GIRL KILLS A WOLF.

Armed with a Hatchet, She Approached the Snarling Beast and Despatched It.

Miss Ethel Hoover, a young lady living at Leola, S. D., had an exciting adventure with a large gray wolf and proved herself a heroine.

Gray wolves are numerous on the great cattle ranges west of the Missouri river, and they are noted for their ferocity. The gray wolf in question evidently had strayed from

SHE RAISED THE HATCHET.

its accustomed haunts by crossing the Missouri river on the ice.

It appeared the other morning in the doorway of the house where Miss Hoover resides and fiercely attacked a large shepherd dog. The animals engaged in a life and death struggle and their snarling and snapping were enough to affect the nerves of even a man. Finally the dog succeeded in getting somewhat the better of its antagonist.

At this juncture Miss Hoover, instead of fleeing to the attic or cellar for safety, appeared on the scene. She was armed with a hatchet and, approaching close to where the dog and wolf were battling for life, she raised the hatchet and dealt the wolf such a blow that it was killed instantly.

## FIND THE GIANT GUARD.

A captive in a cage, poor Jack  
Inside the treasure room was pent.  
For, though some goblins hurried back  
To free him, by a fairy sent,  
The giant's ogre laughed with glee  
To hold this knightly thief in check.  
His likeness is quite plain to see,  
The wealth he guards a jumbled wreck.

## FIND THE TWO WITCHES.

Safe from the giant's grasp, restrain  
Jack and his princess reached a path  
That led afar, and, lest she faint,  
The knight assured her that the wrath  
Of giants, ne'er could reach them now.  
Still as he spoke the witches ran  
Beside them, each with schemings how  
To checkmate. Find them if you can.

## Spring and Summer Hats Are Veritable Works of Art

They Typify Women's Artistic Taste, and Are  
This Season Distinctly Feminine.

### THE NEW COIFFEURS AND THE NEW PARASOLS.

WRITER in one of the New York Sunday papers, taking for his text the Easter Bonnet, says that woman's headgear is entirely an ornament that serves no useful purpose. Going further, he says: "In summer weather, if fashion so decrees, the front will flare away from the face and leave the eyes exposed to the blinding sun. In somber autumn days, at the command of the same fickle dame, the brim may reach to the tip of the nose. In no case is the shape dictated by any utilitarian consideration. "The bonnet offers no protection against cold. No woman ever claimed that it does. It is not even shaped so that it will stay on without being skewered to the hair.

"Being then strictly an ornament, the hat must be considered as a work of art, and as such it must be taken as the absolute criterion of woman's taste or lack of taste. And the word 'absolute' is used because for centuries woman has had the exclusive voice in the matter of her headgear."

This being true, the world will have to accord women a new place in the world of art—a place that has, as a rule, been denied them—for the hats of this season especially, are works of art of the highest type, and they are distinctly feminine with all the little touches that make them so, the flow-

won't put her hair down is grandly disciplined when she finds that her new hat won't sit on so long as her hair is pinned up.

A big three roll, or a big winged eight is the most satisfactory arrangement the coiffeurs have yet arrived at. For the morning the roll is unadorned, save for occasional adornment pins; with afternoon dress clusters of little corkerew curls are tucked in behind the ears, to make way. In the evening, before long Gainsborough ringlets that hang upon the bare shoulders.

When two extremely long curls are drawn forward on either side of the neck they are appropriately called Lady Teuzels, and not infrequently the hair is given a dash of powder to accentuate the eighteenth century quality of this style.

It was almost inevitable with the low arrangement of the hair and the waterfalls of curls, that the nets of 1860 and thereabouts should come back to favor. Women first began to wear them as a joke, but now they have accepted them in earnest, and invisible nets, nets of silk, with chenille spots, and nets of beads, are multiplying with amazing rapidity. A net, for two sound reasons, is almost necessary with the new coiffure. It is required to keep the bulky mass of back hair taut and neat, and when a paucity of natural chevron brings a quantity of false braids and

## MRS. HULDA JAKEMAN,

Wife of the President of the Elders of the Mormon Church, Salt Lake City, Utah, Recommends

### Lydia E. Pinkham's Vegetable Compound for Woman's Periodic Pains.

Surely the great volume of letters we are constantly publishing from women made strong and well by Lydia E. Pinkham's Vegetable Compound must convince all women of the value of this famous medicine.

Does anyone suppose that the young wife of President Jakeman, whose portrait we are permitted to publish, would allow us this great privilege if she had not been so overjoyed at her own recovery that she now wants to be of service to her suffering sisters? No, indeed! no money can purchase such testimony, only a grateful heart full of a desire to help other sufferers could induce a young woman of such high social position to allow her name to be used in connection with any remedy.

How is it possible for us to make it plainer that Lydia E. Pinkham's Vegetable Compound will positively help all sick women? All women are constituted alike, rich and poor, high and low, — all suffer from the same organic troubles. Surely, no one can wish to remain weak and sickly, discouraged with life and no hope for the future when proof is so unmistakable that Lydia E. Pinkham's Vegetable Compound will cure monthly suffering—all womb and ovarian troubles and all the ills peculiar to women.

If there is anything in your case about which you would like special advice, write freely to Mrs. Pinkham. She can surely help you, for no person in America has such a wide experience in treating female ills as she has had. Address is Lynn, Mass.; her advice is free and always helpful.

MRS. HULDA JAKEMAN, of Salt Lake City.

"DEAR MRS. PINKHAM:—Before I knew of Lydia E. Pinkham's Vegetable Compound I dreaded the approach of the time for my menstrual period, as it would mean a couple of days in bed with intense pain and suffering. I was under the physicians care for over a year without any relief, when my attention was called to Lydia E. Pinkham's Vegetable Compound by several of our Mormon women who had been cured through its use. I began its systematic use and improved gradually in health, and after the use of six bottles my health was completely restored, and for over two years I have had neither ache or pain. You have a truly wonderful remedy for women. Very sincerely yours, Mrs. HULDA JAKEMAN, Salt Lake City, Utah."

O, my sisters, I do pray you to profit by Mrs. Jakeman's experiences; just as surely as she was cured of the troubles enumerated in her letter, just so surely will Lydia E. Pinkham's Vegetable Compound cure every woman in the land who suffers from womb troubles, inflammation of the ovaries, kidney troubles, nervous excitability, and nervous prostration; remember that it is Lydia E. Pinkham's Vegetable Compound that is curing women, and don't allow any druggist to sell you anything else in its place.

**\$5000** REWARD.—We have deposited with the National City Bank of Lynn, \$5000, which will be paid to any person who can find that the above testimonial letters are not genuine, or were published before obtaining the writer's special permission. Lydia E. Pinkham Medicine Co., Lynn, Mass.

THREE PRETTY SUMMER HATS.

ers, the ribbons, the light gauzy effects, the feathers, in fact, every form of adornment that is considered strictly feminine. There is nothing mannish about them.

The millinery stores these early spring days offer to the interested visitor a whole art exhibition in themselves. This may be seen in charming toques, round hats, modified turbans, etc., in satin or mixed fancy straw, garnished with straw bows, and needing only a couple of gardenias, a handful of violets or a posy of small roses tucked in at the rear behind one ear, or prominently in front to glory it into a very dressy little head ornament.

If flowers are considered too perishable, a jeweled rosette with a quill or a handsome buckle and a bow of ribbon is what the milliner suggests, for there is never but one decorative touch needed for these light yet sturdy chapaneux that will cross the continent or appear at a spring garden party with equal grace. It is in these hats that the women of moderate means score heavily against the limitations of her purse, and it is only on the point of rear decorations that she must remember to give attention. With the low dressing of the hair all hats must make concessions. A big bow of straw, or wings of that material, a couple of lace jobs or an arrangement in ribbon bows and ends must be set on behind that no hiatus appears between the ending of the rear brim and the low set coils of hair.

How gracefully this treatment is carried out in the more costly hats was delightfully seen at the informal hat exhibition held in the show room of a prominent importer the other morning. All the beautiful millinery was quite fresh from Paris and convincingly illustrated the sustained popularity of the lace and chiffon hat of white roses; and also the growing influence of pearl ornaments in big bead rosettes, decorative pearl headed pins and in looped chains of pearls.

An apropos of this vogue in hair dressing let us notice a few of the coiffures adapted to the new hats. All the shapes are cut, bent and trimmed to harmonize with the hair when dressed low, and the woman who says she

switches into requisition the net assists in holding these securely in place.

Some women, who don't wear jeweled or chenille nets in the evening, have found almost as much comfort in the use of fanciful hair scarfs. These are made of chiffon, silk muslin, liberty tissue, oriental gauze, etc., twisted with ropes of pearls, or caught to the hair behind with jeweled clasps, and then brought forward and the ends fastened just above either temple with bejeweled brooches.

Parasols are not to be outdone by the hats, and they are indeed gorgeous to behold. They have attained such an extravagant variety, such sumptuous colorings and materials and elaboration in detail, that another real novelty does not seem possible now or at any future time. A dozen seems to be about the number for a fashionable woman to possess if she would have her parasol harmonize with her summer costumes.

The new parasol is certainly for effect, with incidentally a little grain of usefulness thrown in. The latter quality depends on your selection, however, for the dainty white chiffon confections inset with lace and trimmed with frills are hardly a protection from the sun. There is a great variety in these just the same.

Then there are pretty white silk parasols also with cream point applique made to fit the frame stretched over the silk from the top to within a few inches from the edge, which is finished with three narrow chiffon ruffles.

Festoon designs of lace in either black or cream are inset very effectively in white, black and colored parasols, but the real novelty is the flowered silk parasol as varied in design and coloring as a veritable flower garden. Insert lace motifs combined with embroidery form another elegant mode of decoration, but with all the fussiness and elegance in this department, there are as of old the same pretty plain silk parasols in all colors, built entirely to serve the purpose for which they were intended.

NEW PALACE TRAINS  
FOR NORTHWESTERN

Seven Pullman Cars and Engine  
Which Cost \$200,000—is the  
Finest in Existence.

Chicago, March 29.—At the Northwestern Railway station yesterday several thousand persons were given an opportunity to examine a new train of seven Pullman cars and engine, which represent an expenditure of \$200,000. The train is one of the finest which have been provided by the management of the Northwestern, The Union Pacific and the Southern Pacific, and beginning next Monday, they will constitute the "overland" Chicago and San Francisco and Portland.

The entire equipment of the new service cost about \$2,000,000 and represents the climax of the car-building, decorative and furnishing arts.

The day previous the train was run to Milwaukee, where between 5,000 and 7,000 persons inspected it, and many prominent citizens were entertained by the officials of the company.

The new "overland limited" trains are undoubtedly the finest extant, as they represent the latest attempt of the Pullman company. Owing to the fact that the trains will run over the tracks of three railroad companies, no attempt was made to embody the official colors of any one of the roads.

Rome, March 29.—The Pope today issued a letter to the whole Catholic world which is considered almost his last testament.
